so sorry that you had such a difficult time. I'm not even sure if we have ever met or not but I do remember you as a great supporter of Detroit Blight. I'm a volunteer for an organization in Detroit called B3RD. We provide a lot of services in our community including cleaning up blight and fighting blighted properties. I hope you come and join us. Just wanted to let you know that I think your profile is such a great asset and I'm so glad that I was able to find it. We've had two great successes with B3RD thus far. One home was cleaned up and sold. And we just sold a 5 acre plot of land to a non-profit that will serve as a park and athletic fields. It was actually zoned for commercial use but it's so undervalued that they offered \$1.00 for it. It's amazing how little property owners are willing to give for a piece of land that has an unlimited potential. Q: Recursive methods

Please help me to understand this recursive method. I don't understand the return statement. Can anyone explain me? def reverse(x) if x == '0' return '1' elif x == '1' return '0' elif x == '2' return '0' elif x == '3' return '1' elif x == '4' return '1' elif x == '5' return '0' elif x == '6' return '0' elif x == '7' return '1' elif x == '8' return '8' elif x == '9' return '9'
